

Patient Instructions for Checking Out Allergy Extracts

Dear immunotherapy patient,

We know there will be times during the school year when you will need to take your antigens home for school breaks and other occasions. Please follow the instructions listed below to help us expedite your request:

- Notify the receptionist when you arrive that you would like to check out your antigens.
- When the allergy nurse calls you back, she will have you verify the vials you requested, and have you sign that you are taking them with you.
- The allergy nurse will package the antigens you requested and will include any pertinent immunotherapy records for you to transport back to your prescribing clinician's office.
- If you are not able to transport your vials, or forget to pick them up, it is **your responsibility** to make the arrangements to have them sent to your provider's office.

Please remember that the health center is closed on holidays and most school breaks. Please call us at 541-346-2739 or consult our website at healthcenter.uoregon.edu for more information on our hours of operation.

For your safety, we can only accept immunotherapy vials that have been sent directly from your prescribing clinician's office.

Please ask your provider to send your immunotherapy vial(s) in advance, in order to reach our clinic before your next injection(s) is due. Allow 24-48 hours for us to process your vials and paperwork. This will also allow us time to clarify any questions we may have with your clinician regarding your immunotherapy schedule.

Thanks for your attention to this matter, and we look forward to serving you again.

Sincerely,
Nurse Specialty Clinic
